

This listing of claims will replace all prior versions, and listings, of claims in the application.

**Listing of Claims:**

1. (Currently Amended) In a computer system a ~~A~~ unified user interface for ~~an~~ a digital application comprising:

one or more component tables, each component table corresponding to a component of the digital application, each component table including at least one command for the corresponding component, and each component table including a description for adding the command to the user interface, each command having an associated priority; and

a master table merged from the one or more component tables, said master table including available commands and available command vectors for the digital application, each command and command vector having a unique object identifier and a visibility flag specifying whether the command or command vector is to be displayed within the interface to a user of the interface, and said master table comprising at least one information element from among the following information elements: available commands including commands that are not menu commands; available command vectors including command vectors that do not correspond to menus commands; commands that are on toolbars; and commands that map to keystrokes;

wherein additional components can be subsequently added to a corresponding component table by a user.

2-5 (Cancelled)

6. (Original) The user interface of claim 1 further comprising an additional component table and wherein the master table is merged from the at least one component table and the additional component table.

7. (Original) The user interface of claim 1, wherein a removed component table of the at least one component table corresponds to a removed component and wherein the master table is merged from the remaining component tables of the at least one component table.

8. (Original) The user interface of claim 1, wherein the master table includes available commands, menus and toolbars and the location of each available command.

9-23 (Cancelled)

24. (Currently Amended) A computer-readable medium comprising computer-readable instructions for a unified user interface for an application, said computer-readable instructions comprising instructions for:

one or more component tables, each component table corresponding to a component of the application, each component table including at least one command for the corresponding component, and each component table including a description for adding the command to the user interface, each command having an associated priority; and

a master table merged from the one or more component tables, said master table including available commands and available command vectors for the application, each command and command vector having a unique object identifier and a visibility flag specifying whether the command or command vector is to be displayed within the interface to a user of the interface, and said master table comprising at least one information element from among the following information elements: available commands including commands that are not menu commands; available command vectors including command vectors that do not correspond to menus commands; commands that are on toolbars; and commands that map to keystrokes;

wherein additional components can be subsequently added to a corresponding component table by a user.

25-28 (Cancelled)

29. (Previously Presented) The computer-readable medium of claim 24 further comprising instructions whereby an additional component table and wherein the master table is merged from the at least one component table and the additional component table.

30. (Previously Presented) The computer-readable medium of claim 24 further comprising instructions whereby a removed component table of the at least one component table corresponds to a removed component and wherein the master table is merged from the remaining component tables of the at least one component table.

31. (Previously Presented) The computer-readable medium of claim 24 further comprising instructions whereby the master table includes available commands, menus and toolbars and the location of each available command.

32. (New) The user interface of claim 1 wherein the additional components are subsequently added after purchase by the user.

33. (New) The user interface of claim 1 wherein the additional components are subsequently added after development.

34. (New) The computer-readable medium of claim 24 wherein the additional components are subsequently added after purchase by the user.

35. (New) The computer-readable medium of claim 24 wherein the additional components are subsequently added after development.
